

FALL OFFERING

PROJECT CAMPAIGN 2019

OCTOBER 21-25

K3-K5 PROJECT FOCUS:
NEW CHAIRS
for the **CAFETERIA**

OUR GOAL:
\$5,500

Questions? Call the Primary Center Office
at 864.770.1391

WHAT

Each year we set aside one week to focus on working together to raise funds for an exciting Primary Center improvement project. This takes the place of regular fundraising sales and events.

This year we are focusing on replacing our old and worn orange cafeteria chairs with fresh new blue chairs.

HOW

Cash and check contributions are collected each day in the rooms, as well as in the PC office. Credit card contributions can be made through the office. The elementary school is tax-exempt, and donation receipts are available upon request.

WHEN

Contributions will be collected during the week of October 21. Items will be purchased as quickly as possible based on the funds received.

Will you join with us as we work together to make the elementary experience even better?

FALL OFFERING

PROJECT CAMPAIGN 2019

OCTOBER 21-25
GRADES 1-5
PROJECT FOCUS:
SHADED BENCHES
for LOWER FIELD
and
CLASSROOM DESK
REPLACEMENT

WHAT

Each year we set aside one week to focus on working together to raise funds for an elementary improvement project. This takes the place of regular fundraising sales and events.

HOW

Cash and check contributions are collected each day in the rooms, as well as in the main elementary office. Credit card contributions can be made through the office. The elementary school is tax-exempt, and donation receipts are available upon request.

As we continue to work through the myriad of logistics regarding the larger need for additional parking, we would like to focus on some immediate improvement needs, including shaded seating on lower field and new student desks. Our current classroom desks are very worn and due to their age can often no longer be tightened or repaired. The approximate replacement cost per classroom is \$5,000.

WHEN

Contributions will be collected during the week of October 21. Preliminary plans are already being explored and installation will take place as quickly as possible based on the funds received.
